

Vehicular Banksman Training

The safe use of vehicles on construction sites

A guide for clients, designers, contractors, managers and workers involved with construction transport

WHO SHOULD ATTEND

Persons whose duties involve traffic management relating both to pedestrian and vehicular traffic.

COURSE DURATION

- ½ Day

COURSE CONTENT

- Legislation and best practice
- Dangers and accidents on construction sites
- Understanding the site traffic management plan
- Reduction of injury to employees, contractors and members of the public
- Demonstration of HSE recommended code of signals
- Safe reversing techniques
- Practical assessment

AIMS

To prepare delegates to recognise the importance of accepting and dispersing vehicles in a safe and efficient manner.

Understand and control the risks of traffic and be able to give clear and precise signals to vehicles.
