Site Safety Plus training courses are UK recognised health and safety qualifications for Directors, Managers, Site Supervisors and operatives. Select Health and Safety Ltd are a national training provider for these courses.

## **DIRECTORS ROLE FOR HEALTH & SAFETY 1 DAY**

This one day course will provide a summary of how to promote a positive organisational culture for health and safety. Workshop exercises throughout the day will give delegates the opportunity to discuss their thoughts about health and safety and their responsibilities in an open forum.

At the end of the course delegates will be able to:

- Recognise the moral, economic and legal costs/implications of decisions made in the boardroom that make their business liable
- Understand the importance of strategic management of risks
- Appreciate the consequences of failing to manage health and safety effectively
- Understand the importance of competent duty holders cooperating, communicating and coordinating health and safety throughout the whole project
- Recognise the need to appoint competent health and safety assistance and the limitations of such an appointment
- Identify the basic tools for introducing a proactive health and safety culture into their organisation.

## **ACHIEVING BEHAVIOURAL CHANGE 1 DAY**

This one day course provides an understanding of how attitude, behaviour, communication and worker engagement, at all levels, can help prevent the chances of accidents occurring.

At the end of the course you will be able to:

- List the basic legal duties of employers and employees
- Define hazards, risks and control measures
- List possible causes of accidents
- Understand the link between attitude and behaviour
- Understand the costs of poor safety performance
- understand the benefits of good safety performance

## HEALTH & SAFETY AWARENESS 1 DAY

This course is aimed at individual's who are about to work, or have just begun work within the industry. The course provides a practical summary of health, safety, welfare and environmental issues, helping the individual to understand potential hazards they may face on site, and identifying the individual's responsibility for looking after themselves and others.

This course is an essential foundation for those wishing to obtain an industry accreditation card and a natural progression from this course would be to attend the Site Supervisor's Safety Training Scheme or a Supervisor Specialist Skills course.

## SITE SAFETY SUPERVISORS 2 DAY

This course is aimed at first line managers, foreman, gangers, team leaders, supervisors and those who have, or are about to acquire supervisory responsibilities. It provides an introduction to health, and safety, welfare and environmental issues, and legal responsibilities relevant to their work. The course gives attendees valuable assistance in safely managing a construction site.

This course prepares individuals for the SMSTS and/or the Supervisor Specialist Skills course.

We also carry out the 1 day SSSTS refresher course.

## SITE MANAGEMENT SAFETY TRAINING SCHEME 5 DAYS

This course is designed for site managers, agents and persons who are responsible for planning, organising, monitoring, controlling and administering a workforce.

The course covers all relevant legislation and other aspects which affect safe working in the building, construction, and civil engineering industries. The course focuses on the need for risk assessment in the workplace, the implementation of necessary control measures and adequate communication to sustain a safe practice in the workplace.
