

SWALEDEK

FALL PREVENTION AND PLATFORM SYSTEM

Select Health and Safety Ltd offer two SWALEDEK approved training courses within the UK.

ERECTORS COURSE

WHO SHOULD ATTEND

- Erectors & Dismantlers

COURSE DURATION

- ½ Day

COURSE CONTENT

- Legislation
- Working at height hierarchy
- SWALEDEK system and components
- Erection and dismantling methods
- Correct usage and limitations
- Practical on site erection and dismantling session
- Handover, inspection and maintenance

AIMS

Site based course provides theoretical guidance and practical on site training for the erection, dismantling, safe use, inspection and maintenance of the SWALEDEK system.

The client must ensure that a site plot has been allocated for the practical element of this course and the provision of all components to allow a full working area to be decked out and disassembled.

£400 per course
